Please note, as we no longer have the smaller function space on site, hosting a conference at The Deck will require us to close the café inside to give you exclusive access to the internal space. For us to do this, a minimum event spend will apply. With the café closed, we will still need to serve the patrons of the National Canberra Exhibition coffee via the outdoor side window. Although this won't directly impact your function, the coffee machine may be going periodically during the day.
